Giving fund contributor recap - Dec

Report Type	Moment-in-time report
Product	Giving Fund
Date	2025-12

Copied from Slack, written by Tess

Which giving fund has the most number of contributors, 2nd highest funds raised ($), and and how did they find us?

Mary

- Mary from ECG healthcare Management Consulting reached out to us from the Major Giving landing page
- "Our company has selected Kiva as the charity we would like to support for our holiday giving program. Can I setup a link to donate just for our company?"
- Channing offered her giving funds as an option
- *"I went ahead and set up a giving page – is there anyway to allow donations of smaller then $25? This page will be shared with 350 people and typically raise between $5000 - $8000 each year, so there is no concern of hitting a minimum."*
- So far the fund has raised $2,825 from 21 people.

Highest contributions also from a SME:

- Lara from Wolftank Group AG in Austria reached out to the partnerships email:
- *"We are currently considering an alternative to sending gifts to our clients and business partners this Christmas. Instead, we would like to lend a sum of money through Kiva – perhaps around €2,000–3,000 in total. On the holiday cards we send to our clients and partners, we would like to mention that we are supporting Kiva, and briefly explain what Kiva is and what it does. (We would like to lend money to people in the category "Eco-friendly", because it fits our business very well.) Would it be possible for us to use an official Kiva logo and a prepared statement for this purpose? Is there a minimum amount that needs to be lent or*

donated in order to do so? Thank you very much in advance for your support and for the wonderful work you are doing around the world!"

- Channing recommended setting up a giving fund to support climate
- Lara deposited $3,000 into the fund

Nonprofit/ media case:

- An interesting use case of an Italian newsletter that started a woman's fund and invited 10 people
- Their fund page says: "*The Polpette newsletter is non-profit, but one thing the Polpette team would like to do is fund girls' education worldwide, because if anything will save us, it will be the girls who have had the opportunity to go to school. This is a Kiva fundraising campaign for Christmas 2025 where 100% of the funds raised will go to individually and repeatedly finance women in the developing world.*"
- We also interviewed Luca - notes here
